Defining the Field of Intraosseous Medicine℠

January 13, 2014

RE: Sole Source letter - EMS

To: Current/ Prospective Vidacare Customer

Thank you for your interest in the EZ-IO® intraosseous infusion system. Vidacare Corporation utilizes a direct sales team to market, sell and/or service all customers within the continental United States and Canadian markets who use the EZ-IO® intraosseous infusion system or who desire to purchase these systems.

Vidacare products utilize a proprietary patented needle and power driver technology which requires both components be supplied by Vidacare Corporation. Vidacare is the sole manufacturer of these intraosseous infusion systems and no other battery powered IO product is currently available in the global marketplace.

If you have any questions or concerns, please do not hesitate to call our office.

Sincerely,

Mark J Reis

Mark Reis
Director of Sales and Marketing, EMS
Vidacare Corporation

EZ-IO® by vidacare
Intraosseous Infusion System

Immediate Vascular Access... When You Need It.SM

EZ-IO® Intraosseous Infusion System

FEATURES

- For patients 3kg and larger
- Insertion under 10 seconds[i]
- Stable and secure
- Drug delivery equivalent to central lines[ii]
- Effective, safe, multi-site placement
- Battery power makes insertion easy and controlled
- Standard Luer-lock catheter
- Simple removal
